

## Con-Pearl<sup>®</sup> trunk floors

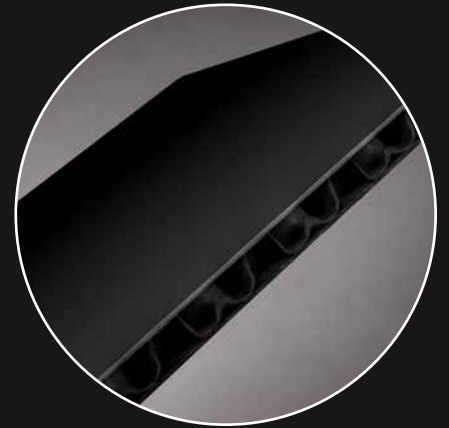

In terms of stability, we set new standards with our **glass fibre** and **carbon fibre** reinforced trunk floor carrier boards. We are your partner for the development of customized trunk floors. With our products we already supply many OEM.

Con-Pearl<sup>®</sup> carbon fibre

Con-Pearl<sup>®</sup> glass fibre

Con-Pearl<sup>®</sup> standard

maximum load capacity  
at minimum weight

fast production of prototypes

lamination of fleece  
without adhesives

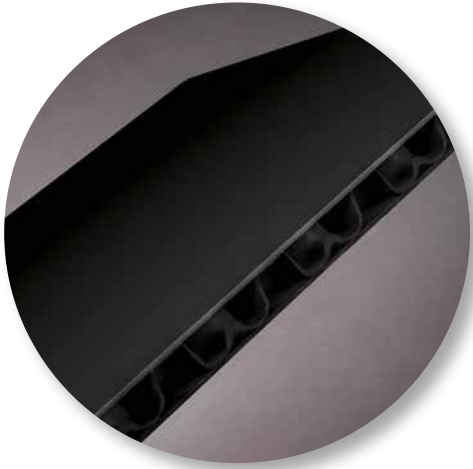

no tooling costs for  
board production

recyclable

many processing possibilities

# Our Product Range

## Con-Pearl<sup>®</sup> standard

Basic material in proven Con-Pearl<sup>®</sup> quality!

- ultra lightweight
- cost effective processing
- moisture resistant
- recyclable
- many surface variations

available in 3 different weights\*:

CP5 1000; CP5 2000; CP10 2500

## Con-Pearl<sup>®</sup> glass fibre

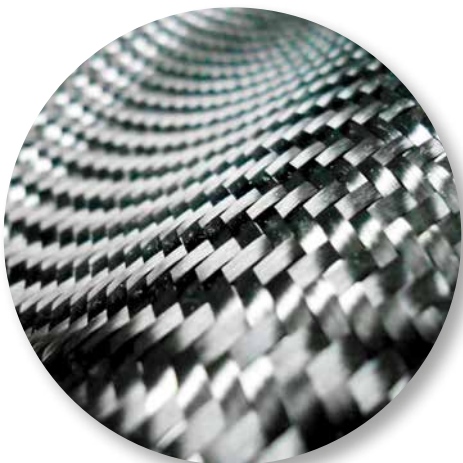

Glass fibre reinforced - for higher strength!

- higher load capacity
- improved load distribution
- improved bending stiffnesses

available in 2 different weights\*:

CP5 2000; CP10 2500

## Con-Pearl<sup>®</sup> carbon fibre

Carbon fibre reinforced - for the highest demands in premium quality!

- low deflection
- maximum load capacity
- higher temperature resistance

available in 2 different weights\*:

CP5 2000; CP10 2500

\* Other grammages available on request.
