

Range of
foils

...for high quality coating and covering solutions !

Our wide range of foils is extremely versatile. We develop and manufacture our foils according to your individual requirements. Different kinds of textiles, mesh, fleece or foam can be applied to the upper and reverse side of the plastic film. You can choose out of a large portfolio of embossings or we can develop a new embossing in common. Please feel free to contact us - we will be happy to advise you!
