the flexible all-rounder

various sleeve options

custom-made components

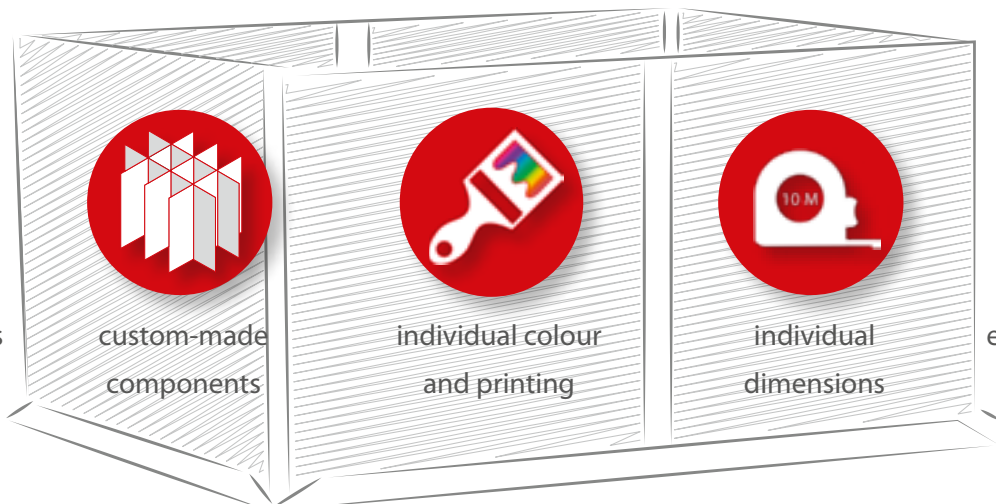

individual colour and printing

individual dimensions

equipment variants like rolls, funnels, RFID

# Packaging Solutions

*Customised planning and construction  
of special load carriers, fittings and compartments.*

Our reusable pallet boxes form the basis of the packing solutions. This means each box can be extended according to the customer's wishes. Compartments made from con-pearl<sup>®</sup> or totally customised solutions, such as cladding of existing frames with a con-pearl<sup>®</sup> solution, are possible.

## Pallet Boxes

for example:

Steel-reinforced Light TECH Box™. For a renowned manufacturer of industrial adhesives.

## Solutions with dunnage

for example:

Compartments for storing small components. For constant use, dust-free and stackable with the pallet system.

## Custom-made solutions

for example:

Compartments with a steel frame. For example, for safe transportation of machine side walls of different dimensions.
